ISEE3D ANNOUNCES THE APPOINTMENT OF A NEW DIRECTOR

Montreal, QC, Canada – February 18, 2009 – ISee3D Inc. (TSX-V: ICT) a technology development Company, with a portfolio of patents and specialized know how related to the capture of 3D image through a single lens, is pleased to announce the appointment of Mr. Tom Mitchell to its Board of Directors effective immediately. Mr. Mitchell has also been appointed as the Chief Technology Officer for ISee3D Inc. Mr. Mitchell, a senior corporate executive, is a registered Professional Engineer with a degree in Electrical Engineering and minor in the Management Science program from the University of Waterloo.

Mr. Mitchell was the founder of International Telepresence, which provided specialized imaging systems to notable clients such as NASA, the Canadian Space Agency, Caterpillar and developing Military systems for more than a decade prior to their invention and patenting of ISee3D Inc.'s core technology, "*the capture of 3D imaging through a single lens*". The Company initially focused that specialized technology on applications in the medical industry through the development, FDA 510K, and sales of 3D single lens endoscope converter systems. By 1997 International Telepresence merged with another entity and was renamed ISee3D Inc.

Prior thereto Mr. Mitchell was a part of another revolutionary technology team at MacDonald Dettwiler that developed the technology and petitioned the Canadian Federal government to change the rules to transmit data over radio. This technology became Mobile Data International and was eventually purchased by Motorola and variations of it is seen today in literally every handheld and mobile data device today.

Mr. Mitchell states that he is very pleased to join the Company's new team of dedicated professionals to finally realize upon the full potential of ISee3D's unique technology which we are convinced delivers the most realistic 3D image in a way that closely matches that captured by the human eyes. I am especially pleased to be a part of the Company at this critical time that the market for the Company's unique 3D technologies has finally reached its optimal point for market penetration into very many new and diverse markets niches.

The Chairman and Chief Executive Officer of ISee3D Inc., Mr. Romanica, stated that he is delighted to have Mr. Mitchell join the Company's growing team. His background and in depth knowledge of the Company's technology provides a key asset to the Company and will serve to ensure that the Company expands upon its technology base as well as serve to expedite the execution of the Company's planned development programs.

ISEE3D Inc. owns a portfolio of broad reaching patents, which are fundamental to providing a unique and cost effective means for the capture of broadcast quality stereoscopic (3D) images through a single lens. The Company's technology has broad application in a great number of markets including the home

entertainment industry, consumer electronics, and imaging devices, including microscopes, endoscopes and sophisticated medical imaging systems.

Statements included in this announcement, including statements concerning our plans, intentions and expectations, which are not historical in nature are intended to be, and are hereby identified as, "forward-looking statements" for purposes of the safe harbor provided by Section 21E of the Securities Exchange Act of 1934, as amended by the Private Securities Litigation Reform Act of 1995. Forward-looking statements may be identified by words including "anticipates", "believes", "intends", "estimates", "expects" and similar expressions. The company cautions readers that forward-looking statements, including without limitation those relating to the company's future operations and business prospects, are subject to certain risks and uncertainties that could cause actual results to differ materially from those indicated in the forward-looking statements.
